

SKIN SLICK All-Sport Spray Skin Lube

Prevents skin chafing, friction and blistering. Do not let a skin irritation ruin your perfect surf or day at the beach. Simply spray directly on prone-to-problem areas (neck, underarm, back, chest, inner thigh, nether regions, and bikini lines), SKIN SLICK will put a barrier between you and what's rubbin' you raw, plus will protect you throughout the day since it is water resistant & sweat proof. Safe on all fabric, including neoprene, SKIN SLICK will even help you get into and out of your wetsuit!
